DANGER**

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
Do not apply this product through any type of irrigation system.

ALFALFA (Grown for Seed Purposes Only)

For the control of the two-spotted spider mite complex.

Ground Application: Use 1½ to 3 pints of COMITE per acre in 25 to 40 gallons of water per acre.

Aerial Application: Use 1½ to 3 pints of COMITE in a minimum of 10 gallons of water per acre.

Additional Precautionary Use Conditions

- (1) For purposes of pesticide registration in the State of Arizona, all alfalfa seed crop fields are considered non-food and non-feed sites of pesticide use provided that the following conditions are met.
 - a) All seed screenings shall be disposed of in such a way that they cannot be distributed or used for food or feed. The seed conditioner shall keep records of screening disposal for three years from the date of disposal and shall furnish the records to the State forthwith upon request. Disposal records shall consist of documentation from a controlled dumpsite, incinerator or other equivalent disposal site and shall show the amount of material disposed of, its grower and the date of disposal.
 - b) No portion of the seed alfalfa plant including, but not limited to, green chop, hay, pellets, meal, whole seed, cracked seed and seed screenings may be used or distributed for food or feed purposes.
 - c) All alfalfa seed grown or conditioned as a non-food or non-feed site in the State of Arizona shall bear a tag or container label which forbids the use of the seed for human consumption or animal food.
 - d) No alfalfa seed grown or conditioned as a non-food or non-feed site in the State of Arizona may be distributed for human consumption or animal feed.
- (2) Violation of any condition listed in subsection (1) above is declared a violation of the use directions contained in this label and is prohibited.

**Follow all applicable directions, restrictions, and precautions on the EPA registered label.
This label must be in the possession of the user at the time of the pesticide application.**
