DANGER**

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.  
Do not apply this product through any type of irrigation system.

**ALFALFA (Grown for Seed Purposes Only)**

For the control of the two-spotted mite complex.

**Ground Application**

Use 1½ to 2½ pints of COMITE per acre in 25 to 40 gallons of water per acre.

**Aerial Application**

Use 1½ to 2½ pints of COMITE in a minimum of 10 gallons of water per acre.

**NOTE:**

The state of Idaho rules governing Pesticide Use and Application, IDAPA 02.02.03.800, address this Pesticide Use on Alfalfa Seed and Clover Seed. All restrictions mentioned in these Rules must be followed by anyone making an application covered by this SLN-ID-960016.

No tolerance has been established in association with this use.

Do not cut current years treated alfalfa seed crop for hay or forage. Do not graze current years treated alfalfa seed crop.

Screenings from alfalfa seed processing are prohibited from food/feed channels. All COMITE treated alfalfa seed screenings must be removed from the food/feed market.

Treated alfalfa seed is not to be used for sprouting. All alfalfa seed treated with COMITE is to be tagged at processing plants, "**NOT FOR HUMAN CONSUMPTION**". It shall be the grower's responsibility to notify the processing plants of any seed crop treated with COMITE.

COMITE is not hazardous to bees when used alone. However, bee hazards may be encountered when combined with other pesticides. Observe State Department of Agriculture regulations on the use of insecticides for seed alfalfa.

COMITE is compatible with most insecticides. Check COMITE label and information handbook for details.

**Follow all applicable directions, restrictions, and precautions on the EPA registered label.**

**This label must be in the possession of the user at the time of the pesticide application.**
