IN SEED ALFALFA
IN THE STATE OF NEVADA
EPA SLN NO. NV-030001

**SUPPLEMENTAL LABELING FOR DISTRIBUTION AND USE ONLY
IN THE STATE OF NEVADA**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

All applicable directions, restrictions, and precautions on the EPA registered label are to be followed.

This labeling must be in the possession of the user at the time of pesticide application.

Personal Protective Equipment and Reentry Intervals on the basic label must be followed.

CROP	PEST	RATE OF APPLICATION
Seed Alfalfa	Spotted Alfalfa Aphid	2 2/3 pints per acre

DIRECTIONS FOR USE

For the control of spotted alfalfa aphid apply 2 2/3 pints of Thionex 3EC in a minimum of 2 gallons of water per acre by air or in a minimum of 10 gallons of water per acre by ground. Apply when aphids first appear.

RESTRICTIONS

- Do not make more than 3 applications per season.
- Do not feed or graze treated foliage, crop residue, seed millings, or seed screenings.
- All alfalfa seed screenings shall be disposed of in such a way that they cannot be distributed or used for food or feed.
- Do not distribute or use seed for food or feed.
- Seed must not be used for sprouting for human consumption.
- Alfalfa seed shall bear a tag or container label which forbids use of the seed for human consumption or animal feed.
- Do not use this product through any type of irrigation system.
