

Link Your Echo360 Videos to your Canvas Course

Part 1 – Activate the Echo360 Button

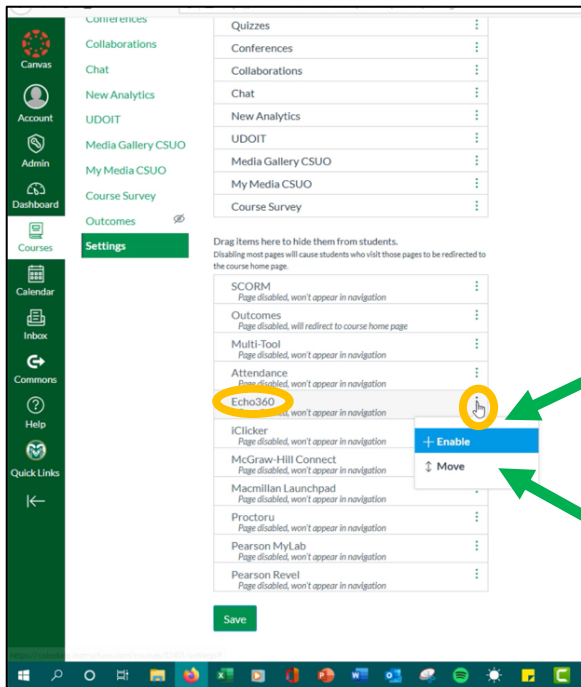

1. In your Canvas course, scroll down to the **Settings** button

2. Select the Navigation tab

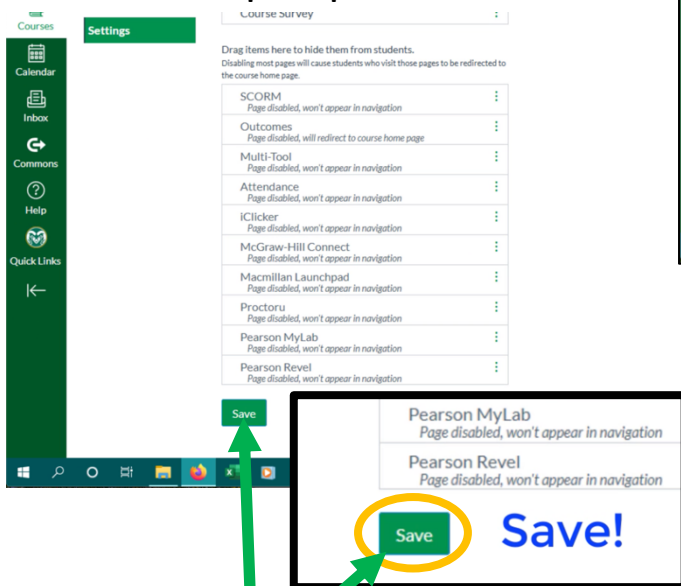

3. Find Echo360 in the bottom portion

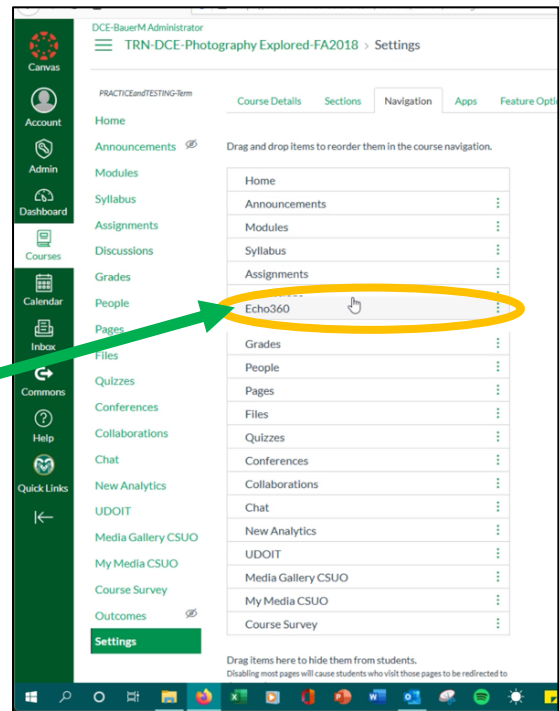

4. Click on the three dots and click +Enable

5. Click the three dots again and hold down on Move

6. Drag to the desired position and drop in place.

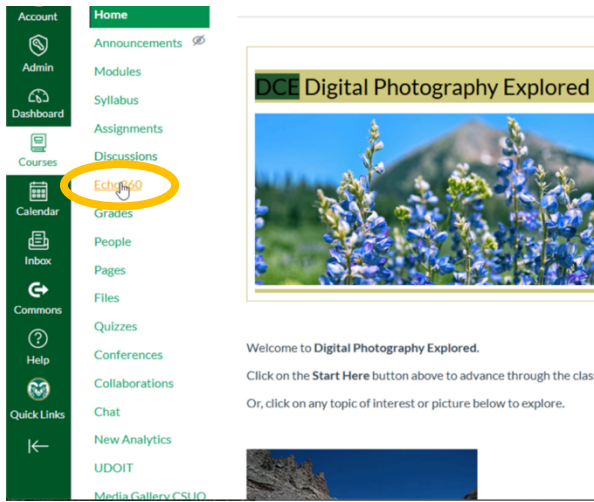

7. Click the Save button at the bottom.

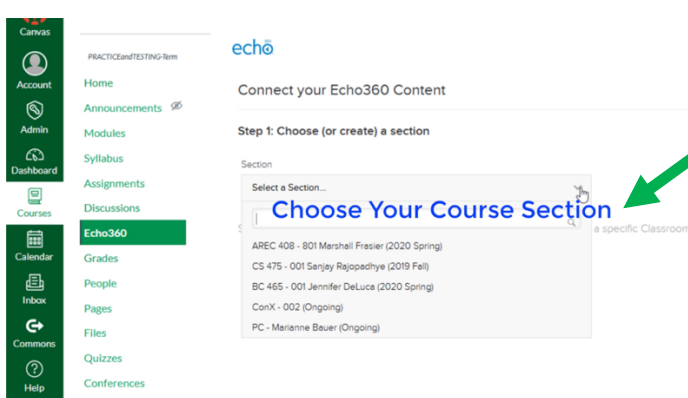

Part 2 – Link your Echo360 Section to your Canvas Course

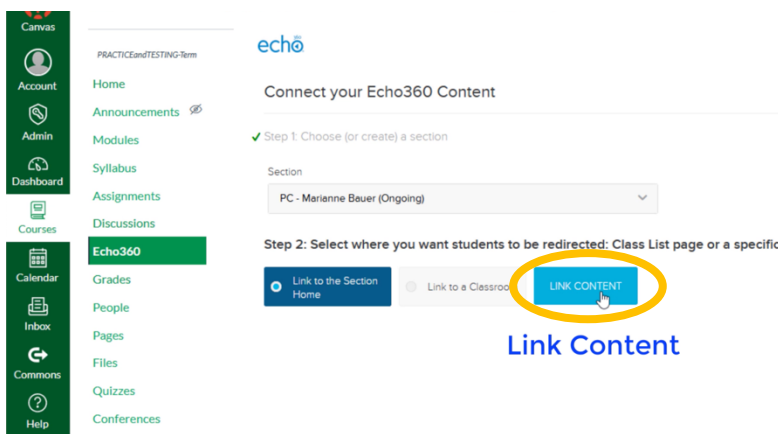

1. Back on the Canvas Home Page, tap the Echo360 button

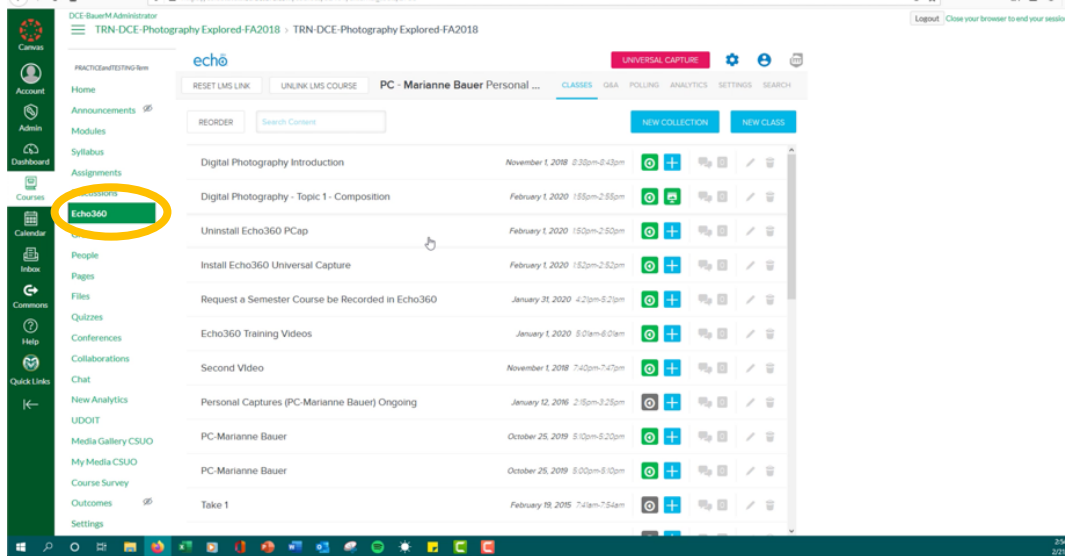

2. Connect your Echo360 content by “Selecting a Section”

3. Tap the “Link Content” light blue button

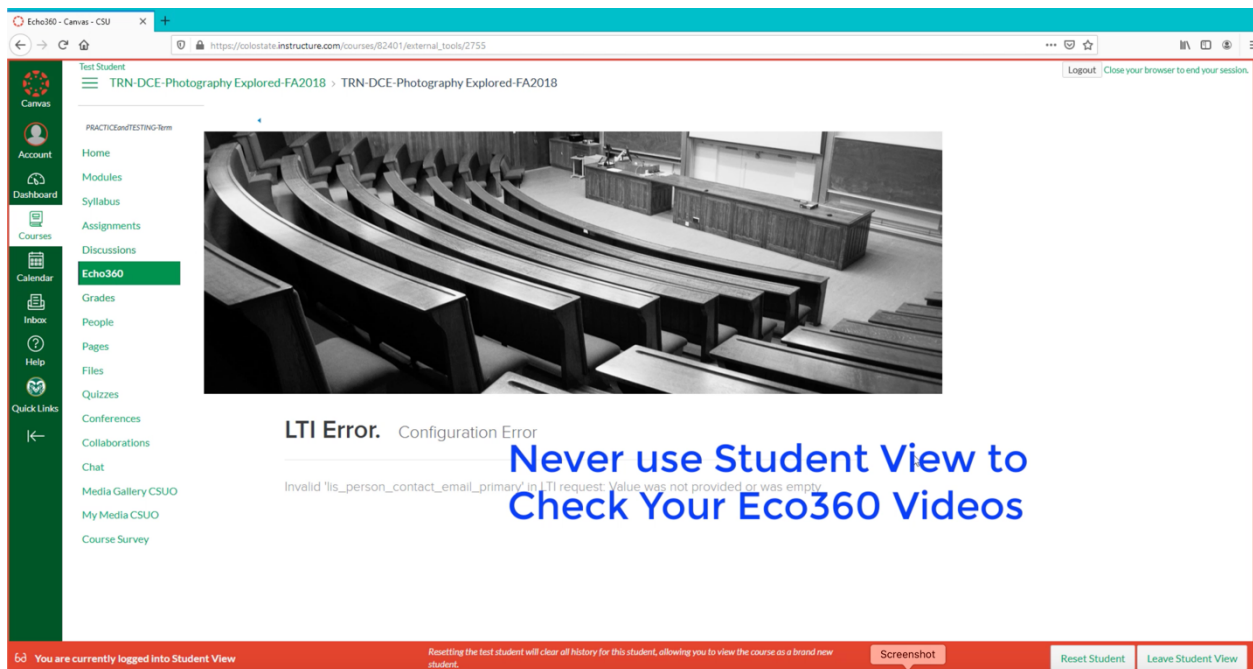

4. Your content or scheduled recordings will appear

Important Note on Student View

1. Never use **Student View** to try to view Echo360 content

2. The LTI Error appears because Echo can't authenticate you as a student, even in Student View. You are the Instructor.

3. Only use Instructor View
